MOCHAMAD TEGAR DWI SEPTIAN
Web Developer

Bandung | +6287848723491 | me@garee.pro | linkedin.com/in/mochamad-tegar/

As a Web Developer focusing on frontend development, I have built responsive, accessible, and user-centric web applications. My technical strengths include React.js, JavaScript, Tailwind CSS, and RESTful API integration, along with collaborative tools like Git and Figma. I'm passionate about creating seamless digital experiences and am eager to contribute to a dynamic team as a Frontend Developer.

EDUCATION

Universitas Komputer Indonesia   Sep 2019 - Oct 2025
Bachelor of Information Technology, 2.77/4.00

PROFESSIONAL EXPERIENCE

Satu Data Indonesia Bappenas   Oct 2023 – Des 2023
Full Stack Web Developer Internship
- Developed responsive and dynamic user interfaces using the Next.js framework, leveraging its server-side rendering and optimized performance features
- Built scalable and secure RESTful APIs using Express.js, ensuring efficient communication between client and server.
- Implemented and managed a PostgreSQL database, designing robust schemas and handling complex queries to support application data needs.
- Deployed and maintained applications on Digital Ocean Droplets, ensuring high availability, security, and performance optimization in a production environment.
